## Sales claims vs. what to expect

| In the sales video | What you can realistically expect |
|---|---|
| **Generates wealth "nearly immediately"** | A daily audio can help you relax and focus. Money still comes from actions and time. |
| **Specific Hz frequencies tune your chakras** | Frequencies like 528 Hz are popular in sound healing, but no study shows they tune chakras or affect wealth. Many people still find them relaxing. |
| **The root chakra controls wealth and "luck"** | Chakras are a spiritual concept from yoga traditions, not a measurable part of the body. |
| **Works for anyone who follows the instructions** | Results from any mindset program vary from person to person. |
| **60-day money-back guarantee, no questions asked** | Stated on the sales page. Email support within 60 days with your order ID. |

## Research in plain words

Chakras are energy centres described in yoga traditions; they are a spiritual idea rather than a measurable part of the body. Research on music and sound shows that calm, steady tones can help people relax and reduce stress. There is no scientific evidence that specific frequencies such as 528 Hz tune chakras or attract money. Used as a quiet daily ritual to focus on your goals, the tracks can still be a pleasant habit.
